

Fiber Optical Armored Drop Cable

Applications

- ◆ Mainly used in building aerial and duct access cabling;

Features

- ◆ Good mechanical and environmental properties;
- ◆ Flame retardant property meets the requirements of relevant standards;
- ◆ The mechanical characteristics meet the requirements of relevant standards;
- ◆ Soft,flexible,easy to splice,and with big capacity data transmission;
- ◆ Meet various requirements of market and clients.

Cable Parameters

Fiber Count	Cable Dimension (mm)	Cable Weight (kg/km)	Tensile(N)		Crush.(N/100mm)		Min .Bend Radius(mm)		Range of Temp(°C)
			Long Term	Short Term	Long Term	Short Term	Dynamic	Static	
1	6.8	47	100	200	500	1000	20D	50D	-20~+60
2	6.8	47	100	200	500	1000	20D	50D	-20~+60

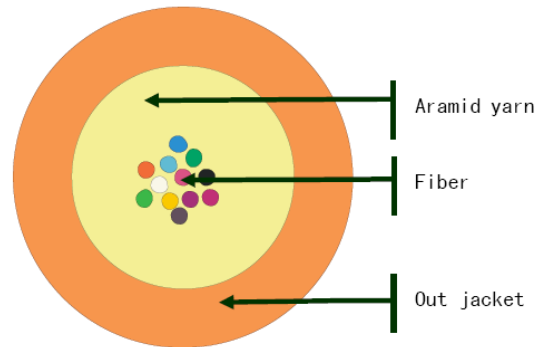

Mini Cable/Micro Cable

Applications

- ◆ Used as access building cable;
- ◆ Used in indoor /outdoor cabling, especially used for FTTH;

Features

- ◆ Good mechanical and environmental properties;
- ◆ Flame retardant property meets the requirements of relevant standards;
- ◆ The mechanical characteristics meet the requirements of relevant standards;
- ◆ Soft,flexible,easy to splice,and with big capacity data transmission;
- ◆ Meet various requirements of market and clients

Cable Parameters
